GENEROUSLY PROVIDED BY THE ROBERT R. MCCORMICK FOUNDATION.**

Closing the Leadership Gap

THE NEED FOR A NATIONAL CLEARINGHOUSE ON EARLY CHILDHOOD PROGRAM LEADERSHIP

For more than 30 years, the McCormick Center for Early Childhood Leadership at National Louis University has been dedicated to building the leadership capacity of the early childhood workforce. However, addressing the need to increase the competency of early childhood program leaders in all sectors of the field has been compromised by limited information and irregular data collection across the states. The 2012 National Survey of Early Care and Education¹ did not report on the demographics of program leaders. Knowledge about the roles, qualifications, and status of the leadership workforce is highly siloed and largely determined by the specific reporting requirements of respective agencies, resulting in intermittent studies of segmented groups of program leaders, such as elementary school principals or Head Start directors. Therefore, a comprehensive, cross-sector resource regarding early childhood leadership is needed to fill this void and to support early childhood system-building efforts.

THE L.E.A.D. EARLY CHILDHOOD COLLABORATIVE

In 2016, the Leadership Education for Administrators and Directors (L.E.A.D.) Early Childhood Collaborative launched an initiative designed to identify and close the program leadership gap. This initiative will recommend key leadership competencies that address both content knowledge and skills needed by administrators to ensure developmentally appropriate outcomes for children, establish efficient program operations, and support working families' need for access to high-quality early learning and care. The overarching goal is to offer an actionable response to the 2015 National Academy of Medicine report, *Transforming the Workforce for Children Birth through Age 8*,² which calls for a unifying foundation for the early childhood leadership workforce across states and industry sectors. The McCormick Center developed the L.E.A.D. Early Childhood Clearinghouse to enhance this initiative.

HOW THE L.E.A.D. EARLY CHILDHOOD CLEARINGHOUSE ADDRESSES THE NEED FOR DATA

The L.E.A.D. Early Childhood Clearinghouse has been created in response to the need for better data on the early childhood leadership workforce. This resource makes available accurate and accessible information for decision makers, policymakers, advocates, scholars, leaders, teachers, students, and other impacted individuals through an interactive website. Data about policy levers to improve the early childhood leadership workforce, state standards, and programs that educate, train, and support individuals who lead organizations serving children birth through age eight is accessible through the Clearinghouse. It is built on a technology platform and infrastructure that allows users to easily access national and state data from a single site. A comprehensive data management system is housed on a National Louis University server and protected by robust firewalls.

Development of the L.E.A.D. Early Childhood™ Clearinghouse

DATA ELEMENTS AND POLICY LEVERS: WHAT ARE WE TRACKING?

The L.E.A.D. Early Childhood Clearinghouse presents national and state statistics related to early childhood administrators (site-based directors, family child care providers, and school principals), and the qualifications related to their education, professional development, and experience. Five policy levers are identified to assess the degree to which the nation and states support high-quality program leadership standards.

Policy Levers

1. Administrator Qualifications in Child Care Licensing
2. Administrator Credential
3. Principal Licensure
4. Administrator Qualifications in QRIS
5. Administrator Qualifications in State Pre-K Programs

Each policy lever is scored using a rubric with multiple indicators, yielding an average lever score and an overall policy levers score.

In addition to the policy levers, the Clearinghouse displays statistics on 42 elements for the U.S., 50 states, and the District of Columbia. The statistics for each of these profiles include:

Administrators: Early childhood site-based directors, school principals, and family child care providers

- The total number in each group
- Average annual salary for each group

Higher Education Programs: Early childhood leadership degree programs and elementary principal degree programs

- Number of institutions
- Number of degree programs
- Degree types: associate, baccalaureate and graduate
- Delivery method: in-person, on-line, and blended

Early Childhood Leadership Academies:

Extensive, focused professional development on pedagogical and/or administrative leadership of early childhood programs.

How Can You Help Refine the Dataset?

A thorough process for examining the accuracy and validity of the information was followed to present the most accurate picture possible of the status of early childhood program leaders. Detailed references to the source of the data are footnoted in each profile. However, considering the segmented and disparate nature of information across states and sectors, it is inevitable that some gaps exist. Stakeholders are encouraged to provide feedback that will make the dataset more complete, accurate, and valid. To provide feedback please visit LEADClearinghouse.org.

WHERE DOES THE DATA COME FROM?

Multiple sources were accessed to contribute data to the Clearinghouse. The McCormick Center conducted a thorough national scan to identify potential sources of information. For some elements, reliable data were available in compendia or directories. However, for many of the elements, data were not available or were found in disparate reports or studies in siloed sectors or geographically-segmented portions of the early childhood leadership workforce.

The McCormick Center reached out to key organizations and established partnerships for collecting and sharing data. The Center also conducted a brief national survey of state regulatory agencies of child care programs to gather specific information about administrator evaluation and professional development. Data were accessed between August 2016 and July 2017. However, the time periods for when the data were collected varied by the source.

Throughout this report, the sources of specific statistics are cited. State reports (e.g., states' workforce studies and Race to the Top - Early Learning Challenge performance reports) frequently referenced early childhood administrators, but the data were reported in inconsistent ways. Data from the state reports were reviewed to confirm findings from more comprehensive sources. The following key partnerships or resources provided major portions of data for the Clearinghouse:

New America partnered with the McCormick Center to collect and share data, avoiding duplicated efforts and supporting each organization's independent projects for mutual benefit. New America conducted a national survey of state departments of education to collect data on the elementary school principal workforce, qualifications, preparation, and professional development.

National Workforce Registry Alliance shared information from its workforce data set of state registries that meet Partnership Eligibility Review (PER) guidelines for data submission. Statistics on the characteristics of individual child care center

administrators and family child care providers were derived from a 2012 dataset of 58,398 professionals working in 12,050 programs/facilities. The Clearinghouse exclusively reports the data from nine registries that meet the Program Eligibility Requirement (PER) guidelines.

L.E.A.D. Early Childhood Collaborative contributed a 50-state scan of requirements for early childhood director credentials.

The Goffin Strategy Group served as a key source for identifying leadership academies for early childhood program administrators.

NAEYC provided information on degree programs for preparing early childhood administrators through the Early Childhood Education Higher Education Degree Directory and a list with links to Administrator Credentials Recognized by NAEYC for program accreditation.

National Center for Education Statistics, Integrated Postsecondary Education Data System yielded information on degree programs for preparing elementary school principals.

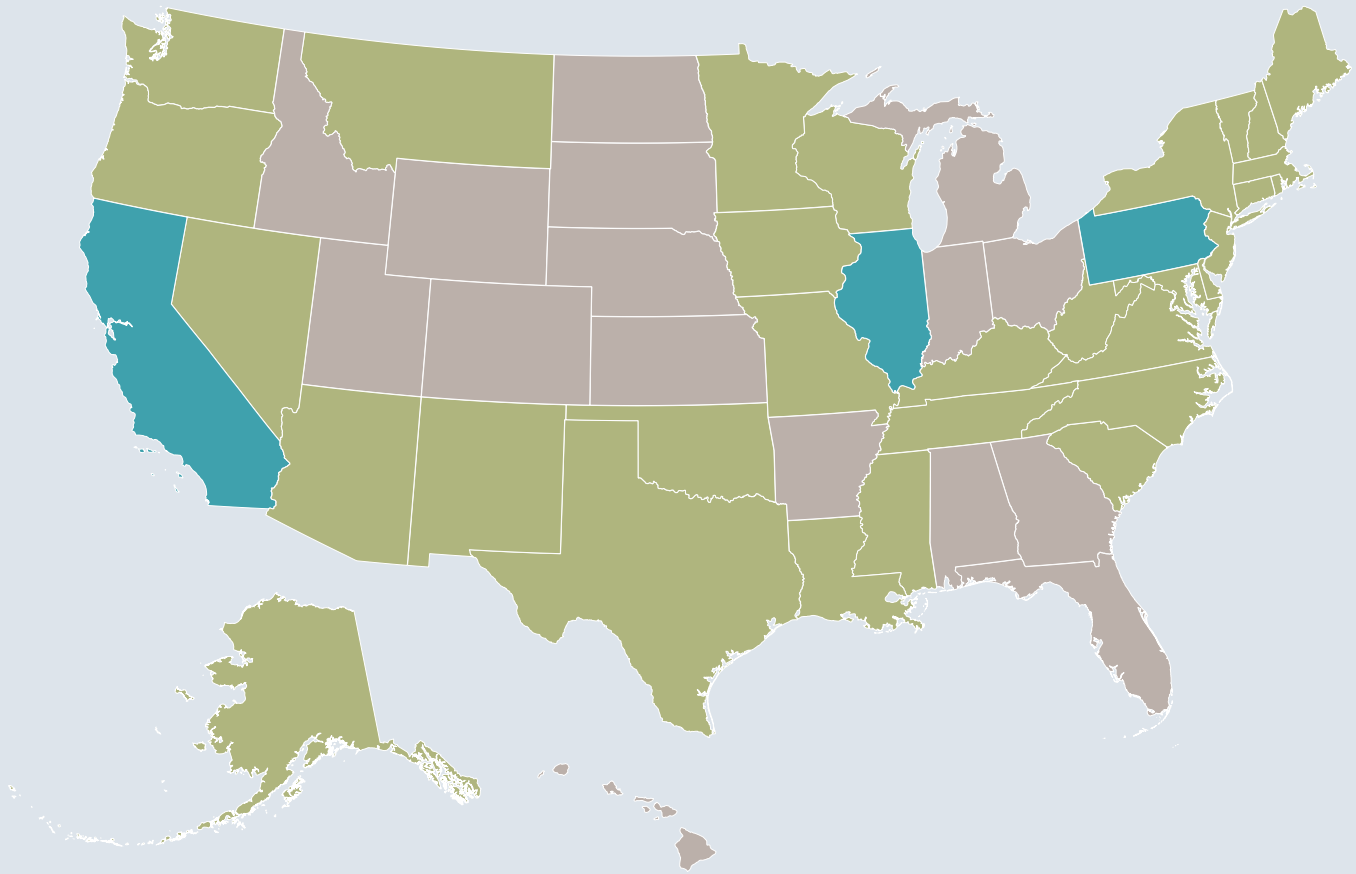

U.S. Bureau of Labor Statistics, Occupational Employment Statistics provided reports on the numbers of early childhood program administrators and average salaries.

QRIS Online Compendium provided comprehensive information regarding state quality rating and improvement systems.

National Center on Early Childhood Quality Assurance hosted the National Database of Child Care Licensing Regulations, which contributed to the verification of licensing regulations regarding administrators.

Child Care Aware of America served as a resource for the number of family child care providers.

National Profile

OVERALL AVERAGE LEVERS SCORE

Policy lever scores were determined by examining statewide policies against a multiple indicator rubric. An average score for each lever was computed and averaged to yield the Overall Policy Levers Score.

POLICY LEVERS

- Administrator Qualifications in Child Care Licensing
- Administrator Credential
- Principal Licensure
- Administrator Qualifications in QRIS
- Administrator Qualifications in State Pre-K Programs

INTERESTING NATIONAL FACTS

There are 27 times more degree programs to prepare principals than those to prepare center- or home-based administrators.

Only 9 out of 40 administrator credentials require a minimum of an associate degree.

There are 94 early childhood degree programs with a focus on management, administration, leadership, or advocacy.

California, Illinois, and Pennsylvania achieved the highest overall scores on the Policy Levers Rubric.

Only Delaware, Illinois, Indiana, Pennsylvania, Rhode Island, and Washington, DC require an associate degree of directors in child care licensing.

NATIONAL PROFILE

The early childhood education field has not defined national standards for the various roles practitioners play in the workforce. While the field is moving towards an acceptance of the BA in early childhood education as the standard for lead teachers, there is less agreement about the requisite competencies and education of program leaders. Instead, federal and state regulatory systems have created a wide array of standards for individuals leading programs for children, birth through age eight. Professional preparation standards for elementary school principals are consistently more robust than those for early childhood program directors. While the vast majority of states require elementary school principals to have a graduate degree in education, only one state, New Jersey, requires a licensed center director to have a bachelor's degree. However, this requirement applies only if the program serves more than 30 children. Advancements in standards for administrators of child care programs, primarily seen in voluntary state QRIS and state-funded pre-K, have not led to substantial improvements in the basic qualifications of most early childhood program administrators. It is notable that no state scored higher than a 6 on the overall policy levers rubric. However, the growing number of higher education degree programs in early childhood administration and specialized ECE leadership academies is an encouraging development.

POLICY LEVERS

The five policy levers are derived from the recommendations of the recent National Academy of Medicine report, *Transforming the Workforce for Children Birth through Age 8*.² This report calls for a unifying foundation for all lead educators—inclusive of center directors, administrators, and family child care providers—having a minimum of a bachelor's degree with content knowledge and competency in child development/early childhood education. Additional competencies, depending on role, are also required. The five policy levers and the scoring rubric address the need for early childhood program leaders across sectors to have a BA degree, and competencies in both child development/early childhood education and program administration. The goal of reporting the state's overall policy levers score is to encourage thought leaders, policymakers, and advocates to tear down the silos and take a cross-sector, systems approach to improving the qualifications, competencies, and on-going professional development of early childhood program leaders.

ADMINISTRATORS

There are over 250,000 early childhood administrators in the United States distributed as follows:

Early Childhood Program Directors – 64,000³

Elementary School Principals – 75,760⁴

Family Child Care Providers – 142,816⁵

Scanning for national-level data on early childhood administrators highlighted the differences in data collection and reporting systems between pre-K to 12 schools and those of early childhood programs serving children birth to age five. The National Center for Education Statistics report on more than 115,000 school principals by sector and school level.³ However, the development of a centralized system for collecting data on center-based program directors and family child care providers is in an early stage with inconsistent progress across states. The dataset from the National Workforce Registry Alliance is only able to report data from nine states that meet PER standards. Therefore, demographic information found in the Clearinghouse is available on a sample of 9,226 early childhood administrators from the child care sector.

CHARACTERISTICS OF EARLY CHILDHOOD ADMINISTRATORS

The national scan showed the following characteristics of center directors, principals, and family child care providers.

	Early Childhood Center Directors (<i>n</i> = 4,503) ⁶	Elementary School Principals (<i>n</i> = 75,760) ⁴	Family Child Care Providers (<i>n</i> = 4,723) ⁶
Average Age	44 years	49 years	42 years
Gender	95% female 5% male	61% female 39% male	96% female 4% male
Race/Ethnicity	79% white 16% black 3% Hispanic	81% white 10% black 3% Hispanic	66% white 25% black 6% Hispanic
Median Years in the Field	12	20	8

Note: Sample of early childhood center directors and family child care providers is from nine state registries.

HIGHEST LEVEL OF EDUCATION

Information is also available regarding the educational background of early childhood administrators. The table below shows the highest level of education attained by center directors, principals, and family child care providers.

	Early Childhood Center Directors (<i>n</i> = 3,811) ⁶	Elementary School Principals (<i>n</i> = 75,760) ⁴	Family Child Care Providers (<i>n</i> = 2,855) ⁶
Less than AA Degree	33%	n/a	69%
Associate Degree	14%	n/a	15%
Bachelor's Degree	38%	8%*	14%
Master's Degree	14%	60%	3%
Higher than a Master's Degree	1%	32%	0%

*Bachelor's degree or less

ADMINISTRATOR CREDENTIALS

A total of 40 credential programs for early childhood program administrators, in 31 states and the District of Columbia, were identified from the national scan.⁷ Nineteen states did not offer a credential. Also, there are three national director credentials available. One half of the early childhood administrator credential programs are tiered, based on criteria such as general education; specialized college credit or professional development training in early childhood education; specialized college credit or professional development training in administration, management, or leadership; and varied lengths of experience. Nine programs (23%) require a minimum of an associate degree to be eligible for a credential. Twenty-five programs (63%) require college credit hours in early childhood education in at least one level of the credential. Twenty-three programs (58%) require college credit hours in administration, management, or leadership in at least one level of the credential.

HIGHER EDUCATION

Of the 3,063 early childhood degree programs in the United States, 94 programs (3%) in 34 states, have a focus on early childhood management, administration, leadership, or advocacy. A majority of them (69%) are offered at public institutions, with 44% at 2-year colleges and 45% at 4-year institutions.⁸ Most programs (81%) are delivered in-person, however 7% are offered exclusively on-line and 15% are hybrid programs.

Elementary principal preparation is offered in all 50 states and the District of Columbia through 2,376 programs by 797 institutions.⁹ Of these, 246 programs (10%) are for bachelor's degrees; 1,400 programs (59%) are for master's degrees; and 730 programs (31%) lead to a doctoral degree. The capacity of higher education to prepare principals for the workforce is exponentially greater than that of preparing early childhood program administrators.

LEADERSHIP ACADEMIES

In addition to formal education for early childhood administrators, there are 32 leadership development programs, in 17 states, with a specific focus on early childhood program leadership.¹⁰ These leadership academies address various needs of program site directors including one or more of the domains of whole leadership¹¹—pedagogical leadership, administrative leadership, and leadership essentials. The delivery approaches differ and may include coaching and mentoring, train-the-trainer options, online or hybrid learning, or face-to-face workshops.

HEAD START/EARLY HEAD START

Head Start and Early Head Start programs are regulated by the U. S. Department of Health and Human Services, Administration for Children and Families. Qualifications for staff in these programs are set forth in statute¹². An Early Head Start or Head Start Director is minimally required to have a bachelor's degree and experience in supervision of staff, fiscal management, and administration. However, the director may not be the site administrator of a program. Frequently, the director is located at the grantee or delegate agency level with oversight of multiple Head Start/Early Head Start sites.

MILITARY EARLY CHILDHOOD PROGRAMS

Guidance on qualifications for directors of programs serving military personnel in the U.S. and abroad is provided by the Office of Personnel Management (OPM). The required standard offers several options to ensure that facility directors have both the academic knowledge and demonstrated skills in working with children. These options include various combinations of college coursework and experience. At a minimum, 24 semester hours of coursework in early childhood education/child development (or a related field) or coursework in managing a business are required. However, OPM emphasizes that preferred qualifications include a bachelor's degree in early childhood education/child development and experience in business management.

HOW CAN YOU USE THE CLEARINGHOUSE?

The L.E.A.D. Early Childhood Clearinghouse advances the understanding of competency standards for early childhood leaders across settings, sectors, and states. Here are a few ways that the Clearinghouse may be useful for decision makers, policymakers, advocates, scholars, leaders, teachers, and students:

- Policy levers can be used to promote the alignment of standards and the adoption of systems that support consistent and effective program leadership.
- Statistics on the early childhood leadership workforce are readily accessible for reports, proposals, papers, and research studies.
- Characteristics about early childhood administrators can be compared among states.
- Multiple resources can be readily accessed through interactive web links.

RECOMMENDATIONS FOR POLICY

A deep examination of the early childhood program leadership workforce and related state policies confirmed our expectations that broad differences exist across states and sectors. With increasing evidence of the importance of early brain development and the call for better educated

and highly skilled early childhood teachers, there has been an astonishing lack of comparable call for well-qualified and highly skilled site-based leaders of early childhood programs.

There are two policy recommendations emerging from the Clearinghouse data. First, across sectors, there is a pressing need for a unifying foundation of administrative qualifications and competencies reflecting a whole leadership approach. A competent early childhood program leader needs knowledge and skills in child development, early childhood pedagogy, leadership essentials, and program administration. Second, the silos of program standards by sector for early childhood administrators can best be eliminated by considering the five policy levers together.

State-funded pre-K and QRIS can impact administrator qualifications, including raising the educational level of program administrators to a minimum of a BA, by providing financial incentives to participate in these voluntary initiatives. Recognizing and rewarding principal licensure standards that include pre-K (birth to five) content areas and field experiences will lead to a more unified foundation for program leaders.

RECOMMENDATIONS FOR RESEARCH

The process of creating the L.E.A.D. Early Childhood Clearinghouse has emphasized the challenges related to accessing consistent and comparable data on early childhood administration. It is evident that segmentation in the field leads to gaps in our knowledge about the leadership workforce. For example, sufficient data was not available to develop a policy lever related to family child care, yet the number of family child care providers exceeds the combined number of early childhood program directors and elementary school principals. While the prevalence and sophistication of state registries is improving, only nine states have developed systems that are rigorous enough to meet the PER guidelines for data submission. The disparity of available data among elementary school principals, early childhood center directors, and family child care providers is

striking. A greater commitment of states to develop workforce registries that adhere to rigorous standards in data collection is needed to advance initiatives designed to support the early childhood workforce.

State Profiles

HOW DOES YOUR STATE COMPARE?

The L.E.A.D. Early Childhood Clearinghouse website presents profiles for each of the 50 states and the District of Columbia. Each profile includes state-specific scores on the policy levers and statistics about administrators and leadership development in the state. Of the states with registries that meet PER guidelines, additional information about the characteristics of administrators and density maps of the concentration of early childhood administrators is available. Links to specific information about early childhood leadership in each state are accessible through the site's interactive features.

Visit LEADClearinghouse.org to learn more about the multiple indicator rubric for each policy lever.

POLICY LEVERS		RATING

POLICY
LEVER
SCORE**

2

Alabama supports early childhood leadership through its state-wide QRIS, public pre-K program, principal licensure, and early childhood leadership degree programs. There are no specific requirements regarding administrator qualifications in the Alabama Quality Stars QRIS. Public pre-K classrooms located in schools require the site administrator to hold a principal endorsement. Elementary certification is available for principal licensure. Alabama does not have an administrator credential, leadership academies, or a workforce registry.

INTERESTING FACTS

Directors of licensed programs must complete at least 24 clock hours of continuing education annually.

Two community colleges offer associate degrees in early childhood leadership and there are 45 degree programs for elementary school principals.

The Program Administration Scale (PAS), which measures Administrator Qualifications, is embedded at all five levels of the QRIS.

OVERALL POLICY LEVER SCORE **3**

Alaska supports early childhood leadership through its state-wide QRIS, public pre-K program, and principal licensure. Directors of licensed programs are required to complete 24 clock hours of professional development annually, but are not required to have college credit in early childhood education/child development or program administration. Alaska offers an early childhood administrator credential (ECAC I) but it does not require a degree or any college credit in early childhood/child development or program administration. Principals must have a graduate degree and three years teaching experience. A principal endorsement is required of school-based pre-K programs. There are six principal preparation programs offered at two universities, but no early childhood leadership degree programs.

INTERESTING FACTS

Alaska is the largest state in the United States and has the 2nd smallest number of center directors.

Alaska implemented its statewide QRIS, Alaska Learn & Grow, in July, 2016.

The Alaska SEED (System for Early Education Development) includes a registry to track individual career development.

Administrators in Arizona's state-wide QRIS (at the highest level) and those in public pre-K are required to have a bachelor's degree and at least 30 semester hours of college credit in early childhood education. These criteria are supported by seven different degree programs from one university and two community colleges. In addition, there are 41 elementary principal degree programs at 11 institutions. Directors of child care centers can meet licensing requirements through a combination of education, credentials, and experience with as little as 6 semester hours of college credit in early childhood or child development. Arizona does not offer a statewide director credential.

Arkansas child care licensing requires administrators to obtain at least 15 clock hours of training annually. Traveling Arkansas' Professional Pathways (TAPP) offers a number of supports for early childhood administrators along their career trajectory through orientation, a certificate, a credential, mentoring, and coaching. Substantial flexibility is available to administrators to choose professional development to meet their needs and interests based on clock-hour training. Elementary school principal licensure includes pre-K.

Director credentialing in California consists of a site supervisor or program director permit through the Department of Education, which is an option to meet qualification requirements for child care licensing. A director credential is embedded in the QRIS and required of state pre-K programs. The QRIS is operated at the county-level and requires a graduate degree with at least 30 college credits in early childhood education, and at least 8 college credits in management or administration or an Administrative Services Credential to receive the highest number of points on the Director Qualifications standard.

OVERALL POLICY LEVER SCORE 2

Colorado supports early childhood leadership through its state-wide QRIS, public pre-K program, and principal licensure. State pre-K programs require administrators to hold a bachelor's degree with at least 30 college credits in early childhood education. The QRIS measures the qualifications of child care center directors using the Colorado Early Childhood Professional Credential rubric that accumulates points along four pathways: formal education, ongoing professional development, experience, and credentials/certifications. The minimum qualification requirements for directors of licensed child care centers vary depending on the size of the center. The CDA is the minimum qualification for a director of a small center while the minimum qualification for a director of a large center is 30 semester hours of early childhood education plus 24 months of verified experience. Colorado does not have a director credential.

4

Child care licensing regulations in Delaware require the early childhood administrator to have at least an associate degree, 15 semester hours of college credit in ECE, and 18 clock hours of training annually. Licensing requirements include two administrative roles: early childhood administrator and early childhood curriculum coordinator. A center with 60 or fewer children may have one staff member who functions and is qualified for both of these distinct roles. The Delaware Stars QRIS provides points for the Delaware Administrator Credential and for the Curriculum and Assessment Credential. These credentials are considered Essential Standards for the two highest star levels at re-verification or when a program moves up a star level.

OVERALL POLICY LEVER SCORE **2**

Florida has a county-based QRIS, with three separate and distinct models each with varying standards. The Florida director credential is required in each QRIS, as well as the state pre-K program. The director credential is competency-based and is required in child care licensing standards. There are no early childhood leadership academies; however, four early childhood leadership degree programs are available. There are 103 elementary principal degree programs offered.

INTERESTING FACTS

Florida Director Credential is required in child care licensing requirements, QRIS models, and state pre-K administrator requirements.

The state early childhood workforce registry meets the National Workforce Registry Alliance PER guidelines.

Child care directors' average salary (\$62,720) is 70% of elementary principals' compensation (\$89,424)—more comparable than in most states.

OVERALL POLICY LEVER SCORE 2

At the highest level, Georgia's state-wide QRIS requires that administrators hold a bachelor's degree. State pre-K programs located in public schools require that administrators have a P-12 certificate; however, directors of community-based child care programs do not have administrator preservice requirements. Elementary principals are required to earn a master's degree with pre-K coursework. Georgia does not offer a director credential or host any leadership academies for early childhood administrators.

OVERALL POLICY LEVER SCORE

2

Hawaii has a state-wide QRIS that at the highest level requires administrators to have a bachelor's degree and a minimum of 9 semester hours in business. Elementary school principals are required to have a minimum of a bachelor's degree and teaching experience, although pre-K experience is not required. State pre-K programs are located in the school districts and a principal license is required for administrators. Child care licensing regulations require administrators to have at least 30 semester hours in general education. There are no early childhood leadership degree programs or early childhood leadership academies available in Hawaii and the state does not have a director credential.

OVERALL POLICY LEVER SCORE 2

A state-wide QRIS, Steps to Quality, is implemented; there are minimum requirements for administrator qualifications which are based only on training. At step 5 of the QRIS, at a minimum, a center director must have 15 hours of business management training in addition to a current CDA. Principal licensure includes pre-K. Elementary principals are required to have at least a master's degree with some teaching experience. Idaho does not offer state pre-K or a director credential. There are no early childhood leadership degree programs or leadership academies in the state.

OVERALL POLICY LEVER SCORE 6

The child care licensing standards require center directors to have a minimum of an associate degree with 21 semester hours of early childhood college credit. Illinois provides program directors the option of earning a competency-based director credential (IDC). This credential is offered at three degree levels: associate, baccalaureate, and graduate. The IDC is embedded within licensing standards, ExceleRate Illinois QRIS, and Preschool For All, the state-funded pre-K program. Principal licensure in Illinois is pre-K -12. There are six leadership academies offered throughout the state and two graduate degree programs in early childhood leadership.

OVERALL POLICY LEVER SCORE 2

Indiana has more robust child care licensing standards for administrator qualifications than many states, requiring a minimum of an associate degree with at least 24 semester hours in early childhood education. While there are additional professional development requirements, a bachelor's degree is not required for directors at the highest level of the state-wide QRIS. Elementary principals are required to have a minimum of a master's degree, though early childhood experience and content is not required. A state pre-K program is available in both schools and community-based programs. Administrators of state pre-K in schools are required to have a principal endorsement, but there are no specific requirements for administrators of state pre-K in community-based programs. Indiana does not offer an administrator credential. There are no early childhood leadership degree programs or leadership academies offered in the state.

INTERESTING FACTS

On average, elementary principals earn twice the salary (\$86,014) of child care directors (\$42,590) in Indiana.

Indiana is one of only five states that require a director of a licensed program, of any size, to have a degree.

29% of directors reported having an associate degree or higher in early childhood education.

Child care licensing in Iowa requires directors to have a minimum of 30 semester hours in general education. The Iowa Department of Human Services operates the state-wide QRIS, which is based on a point system. Points are awarded if a program director has a national administrator credential or is a licensed principal. Elementary principals are required to have a master's degree and teaching experience. Pre-K is included in the licensing grade-level range. State pre-K classrooms must be NAEYC accredited programs, which includes qualification standards for directors related to their level of general education and specialized training in early childhood education and business administration. There are no early childhood leadership degree programs or leadership academies offered in the state.

OVERALL POLICY LEVER SCORE

2

Minimum state licensing standards require that program directors be a high school graduate, have six months of teaching experience, and attend five clock hours of training per year. The Kansas Early Childhood Director Credential was developed from the Kansas/Missouri Bi-State Core Competencies. It is a tiered competency-based credential. At the lowest tier, the credential requires a minimum of an associate degree, 24 semester hours in early childhood education, 9 semester hours in early childhood program leadership and management (or 18 semester hours in general leadership and management), teaching experience, administrative experience, and professional contributions. Principals are required to be licensed for leading school-based pre-K programs; there are no requirements for leading community-based pre-K programs. Kansas' Links to Quality QRIS is being field tested in spring, 2017. There are no early childhood leadership degree programs or leadership academies in Kansas.

Licensing requirements for directors, at a minimum, require a 12 clock-hour orientation and child development training plus one year of experience working with children. The director's credential in Kentucky requires 12 semester hours in leadership and management and can be part of an early childhood degree program or as a separate course of study specifically created for the credential. Principal licensure requires a graduate degree. The state pre-K program has no qualification requirements for administrators when the pre-K program is delivered in community-based organizations.

INTERESTING FACTS

The average salary of child care directors is \$43,530 as compared with \$82,440 for elementary principals.

Kentucky is one of eight states that require college credit in leadership and management for the director credential.

There are 280 child care directors, 273 family child care providers, and 930 elementary school principals in Kentucky—atypical of many other states.

OVERALL POLICY LEVER SCORE

3

The qualifications for directors in child care licensing minimally require a CDA plus one year experience or three years of experience plus 90 clock hours of approved training. The director credential is also a combination of clock-hour training and experience. Louisiana's QRIS, Quality Start, is based on a point system for the top three levels. In order to earn the highest number of points, child care directors must have an associate degree, six semester hours in administration, and 5 years of administrative experience. Pre-K certification is available for elementary school principals and pre-K course content is required.

3

Child care licensing in Maine requires administrators to obtain 30 clock hours of continuing education annually. The competency-based director credential requires experience in early childhood education but not in administration. There are three options to attain the credential that allow for various combinations of clock-hour training and college coursework, ranging from 150 clock-hours to 9 semester hours of college credit. At the highest level, the statewide QRIS requires administrators to have a minimum of a bachelor's degree. Elementary school principal licensure requires a graduate degree. For state pre-K programs, elementary schools are required to have a licensed principal; community-based programs do not have specific qualifications for directors.

OVERALL POLICY LEVER SCORE **3**

The minimum licensing requirements for a center director require 90 clock hours of training or the CDA plus three semester hours of education in business/administration. Preschool programs serving more than 40 children require a director to have an associate degree with 15 semester hours in early childhood education. The Administrator's Credential in Maryland has four levels. At the first two levels, it minimally requires clock hour training and experience in early childhood education; at level three and four it requires an associate and baccalaureate degree respectively. Principal licensure requires a master's degree and teaching experience. Elementary principal certificates can include pre-K, however pre-K content and pre-K experience are not required. At the highest level of the state-wide QRIS, Maryland EXCELS, the program director must hold the Administrator's Credential (level 2 or higher). There is one early childhood leadership academy and no early childhood leadership degree programs.

Massachusetts

**OVERALL
POLICY
LEVER
SCORE**

3

Qualifications of administrators in Massachusetts licensed child care programs vary across seven levels based on licensed capacity, hours of operation, and the percent of non-teaching administrative time. For full-day programs serving 14 or more children, director certification is required. The two-level Director Certification for licensing serves as the administrative credential for the state. At the minimal level, a director can achieve certification with a combination of a CDA, three CEU's in child care administration, and prior experience as a lead teacher. The QRIS, at the highest level, requires a bachelor's degree and at least 18 credit hours in early childhood education. The state pre-K program requires a bachelor's degree for administrators along with at least 18 credits in early childhood education. There are six early childhood leadership degree programs offered at four institutions and three early childhood leadership academies in Massachusetts.

OVERALL POLICY LEVER SCORE 2

Licensing regulations in Michigan require directors to have a minimum of a CDA, at least 18 semester hours in early childhood education, 3 CEU's in child care administration, and relevant experience. Annual training requirements for licensing include sixteen clock hours. There is no director credential in Michigan. Principals are required to have a master's degree, however pre-K coursework or experience is not required. The statewide QRIS is based on a points system ranging from one point awarded for meeting director qualifications required in licensing (CDA and at least 18 semester hours in early childhood education) to four points if the director has a minimum of a bachelor's degree with a major in early childhood education/child development and two college credits in child care administration. There are two early childhood leadership degree programs in the state.

OVERALL POLICY LEVER SCORE **3**

Minimum state licensing standards require that program directors be a high school graduate, have six months of teaching experience, and 90 clock hours of accredited coursework (CEU's) in staff supervision, human relations, and child development. If a director functions as a teacher, they must also meet the qualifications of a teacher. Elementary principals must have a minimum of a bachelor's degree with teaching experience; pre-K content are a part of the principal certification requirements. The state-wide QRIS is based on a points system; one point is awarded if the director has a director's credential and one point is awarded if the director has a BA with at least 24 semester hours of early childhood education credit. In the state pre-K Program, principal licensure is required in school-based programs and a graduate degree is required of directors of community-based programs.

POLICY
LEVER
SCORE**

3

Child care licensing minimally requires a director to have two years paid experience in a licensed child care facility and a current CDA, Mississippi Department of Human Services' Child Care Director's Credential, or 24 semester hours in early childhood education. Entry-level principals in Mississippi must have a minimum of a master's degree and pass the administrator's praxis exam. At the highest level, the state-wide QRIS requires directors to have a bachelor's degree with at least 18 credits in early childhood education. State pre-K administrators are required to have a graduate degree, however early childhood coursework is not required. There is one early childhood leadership degree program in Mississippi.

OVERALL POLICY LEVER SCORE

3

Minimum state licensing education and experience requirements are based on four levels of the licensed capacity of the center. For centers serving up to 20 children, a director minimally needs a CDA. For centers serving 100 or more children, the minimum requirements are four years of experience and 24 semester hours in child related courses. The Missouri Early Childhood Director Credential is a tiered competency-based credential. At the lowest tier, the credential requires a minimum of an associate degree, 24 semester hours in early childhood education, 9 semester hours in early childhood program leadership and management (or 18 semester hours in general leadership and management), teaching experience, administrative experience, and professional contributions. Elementary principal certification requirements do not include pre-K content or experience. Missouri currently does not have a quality rating and improvement system. The state pre-K program requires principal licensure for school-based programs, but no requirements for community-based programs. There is one early childhood leadership degree program available and no early childhood leadership academies.

OVERALL POLICY LEVER SCORE 4

Child care licensing minimally requires that directors have three years of experience in the field and 15 clock hours of training annually. The Montana Early Childhood Program Director Credential is a three-tiered credential with a minimum requirement of a CDA plus 20 semester hours of early childhood education credit, 45 clock hours of approved program management training and two years of experience working in an early childhood program; one year must be in program management. Elementary principals are required to have a master's degree with pre-K content but not pre-K experience. At the highest level, the state-wide QRIS requires directors to have a minimum of an associate degree plus 20 semester hours in early childhood education. Administrators in state pre-K programs are required to have a principal license and a master's degree. There are no early childhood leadership degree programs or leadership academies in Montana.

**OVERALL
POLICY
LEVER
SCORE**

2

Child care licensing minimally requires that directors have 3,000 clock hours of experience and 36 clock hours of approved training. Nebraska does not have a director credential program. Elementary principals are required to have a bachelor's degree with pre-K coursework and experience. All staff, including administrative staff, must attend 24 clock hours of in-service training per year to receive one point. A bachelor's degree is required for administrators of state pre-K programs. There is one early childhood leadership degree program in Nebraska, but there are not any early childhood leadership academies.

OVERALL POLICY LEVER SCORE **3**

Child care licensing requires that directors have a minimum of a CDA, 2,000 hours of experience in child care, and completed a course of training in business administration or 1,000 verifiable hours in an administrative position. Nevada does not offer a director credential. Elementary school principals are not required to have pre-K experience; pre-K content is embedded in certification. The state-wide QRIS, at the highest level, requires directors to have a minimum of a bachelor's degree with 30 semester hours in early childhood education. Administrators of school-based state pre-K programs are required to have principal certification. There are two early childhood leadership degree programs in Nevada, but no early childhood leadership academies.

OVERALL POLICY LEVER SCORE **3**

Child care licensing minimally requires that directors have a minimum of a CDA with 4,500 hours of experience in a licensed child care program, and 3 semester hours of college credit in administration or early childhood leadership and supervision. The competency-based director credential, at the base level, requires a minimum of 24 semester hours in early childhood education and 1 or more years of experience in administration. It does not require any additional business or administration coursework. New Hampshire offers Licensed Plus, a two level QRIS that does not require any additional qualification standards for directors. Elementary principal licensure requires a master's degree and teaching experience, but pre-K content and experience are not required. New Hampshire does not have a state funded pre-K program. There are two universities that offer early childhood leadership degree programs.

OVERALL POLICY LEVER SCORE 4

New Jersey has differing administrative staffing requirements based on licensed capacity of a child care center. For programs licensed for more than 30 children, a minimum of a BA, plus one year of managerial or supervisory experience, is required. For programs with 30 or fewer children, a group teacher may serve as director with a CDA, CCP, Group Teacher Endorsement, or NJ Infant/Toddler Credential, plus one year of teaching experience in child care. The competency-based administrator credential is built on the foundation of a BA. It is comprised of 15 college credits or a 144 hour noncredit option, plus one year experience working with children, one year of management experience, a portfolio, and professional contributions. The statewide QRIS is a points-based system; there is one point awarded if the supervisor of teaching staff has a CDA or nine credits in early childhood education. Elementary principal licensure requires a master's degree and pre-K content is included as part of the certificate. State pre-K programs in schools require a principal license. There are three early childhood leadership degree programs and one early childhood leadership academy in New Jersey.

INTERESTING FACTS

New Jersey requires a bachelor's degree for directors of licensed child care programs serving more than 30 children.

New Jersey embeds the Program Administrations Scale (PAS) into its QRIS criteria for points and the PAS is used to assess competencies in the NJ Administrators Credential.

Rutgers University offers an EdD with a concentration in teacher leadership and an early childhood area of study.

OVERALL POLICY LEVER SCORE **3**

Child care licensing minimally requires that directors have one of eight different certificates or credentials (e.g., CDA, CCP, NAC, New Mexico Child Development Certificate) and two years of experience in an early childhood setting. New Mexico does not have a state issued administrator credential. Elementary principal licensure requires a master's degree with teaching experience. Certification in pre-K is available and requires pre-K coursework; however pre-K work experience is not required. Principal licensure is required for school-based State pre-K programs and preschool program administrators must hold one of four credentials offered in New Mexico. At the highest level, the state-wide QRIS requires administrators to complete 14 college credits in early childhood education and extensive clock hour training (New Mexico Leadership Academy 1, 2, and 3). There is one early childhood leadership degree program and one online early childhood leadership academy in New Mexico.

INTERESTING FACTS

The pay differential between child care directors and elementary school principals is less than in many other states.

Central New Mexico Community College offers an associate degree in early childhood program administration.

New Mexico provides the web-based FOCUS Leadership Academy to support early childhood administrators.

OVERALL POLICY LEVER SCORE

4

Child care licensing minimally requires that directors of programs have a CDA, two years of teaching experience in an early childhood setting, and two years of experience supervising staff in a child care setting. The competency-based administrator credential minimally requires an associate degree (or 60 credits towards a bachelor's degree), with a minimum of 18 semester hours in early childhood education and 18 semester hours in children's program administration. The administrator credential is listed as an option to meet training and education requirements for child care licensing and is embedded in the state QRIS. Elementary principal licensure requires a master's degree and offers pre-K certification. The statewide QRIS awards the highest amount of points for director qualifications if the director holds a director credential, a master's degree, college credit in early childhood education, and college credit in business or administration. There are three early childhood leadership degree programs and one early childhood leadership academy.

North Carolina

OVERALL POLICY LEVER SCORE

4

The minimum child care licensing requirement is the North Carolina Administrator Credential Level I, which requires a minimum of seven semester hours in early childhood education six semester hours in early childhood administration and, including a portfolio. Coursework for the director credential is offered at 58 community college locations. Pre-K certification is available in principal licensure which requires a master's degree. The QRIS, North Carolina Star Rated License, is a points-based system that builds on the foundation of licensing standards. A principal license is required for administrators of school-based state pre-K programs and a director credential with a bachelor's degree is required for directors of community-based programs with state pre-K. There are three early childhood administration degree programs in North Carolina offered by University of North Carolina at Wilmington, University of North Carolina at Greensboro, and Isothermal Community College in Columbus. Three early childhood leadership academies are also available.

INTERESTING FACTS

There are more child care directors (2,280) than elementary school principals (1,943) in Ohio.

The 4C Early Education Business and Leadership Development Institute and the Ohio Early Childhood Leadership Academy are offered in the state.

Early childhood leadership degree programs are offered at 3 private institutions in Ohio: Davis College, University of Dayton, and Union Institute and University.

OVERALL POLICY LEVER SCORE **3**

Directors of licensed programs must meet the Oklahoma Director Credential – Bronze (lowest level) requirements of a CDA, 40 clock-hours of training in administration, 12 months experience in an early childhood setting, and 20 hours of annual clock hour training. Elementary principal licensure requires a master's degree, however pre-K content and experience are not required. At the highest level in the statewide QRIS, administrators are required to have 30 clock hours of job-related training. School-based administrators of state pre-K programs are required to be licensed principals. There are four early childhood leadership degree programs and one leadership academy in Oklahoma.

INTERESTING FACTS

The University of Oklahoma's Leadership Academy provides 46 hours of professional development to enhance leadership skills.

Oklahoma City Community College and Oklahoma State University offer AAS degrees in early childhood administration.

Oklahoma is one of only four states that require a director credential for directors of licensed child care programs.

OVERALL POLICY LEVER SCORE **3**

Child care licensing minimally requires that directors have one year of training or experience in management or knowledge of child development, plus 15 clock hours of professional development annually. The Oregon Registry Director Credential requires a minimum of Step 9 in the Oregon Registry, plus 60 clock hours of training in program management, three years of administrative experience, program assessments, professional contributions, and a portfolio. Elementary principal licensure requires a master's degree and pre-K certification is available, however pre-K content or experience is not required. The statewide QRIS, at the highest level, requires a director to achieve Step 10 on the Oregon Registry (minimum requirement is 800 clock hours of training), plus 60 clock hours of training in Program Management. School-based state pre-K programs require principal licensure, however no qualifications are required for directors of community-based programs. There is one early childhood leadership degree program and no early childhood leadership academies in Oregon.

OVERALL POLICY LEVER SCORE **6**

Pennsylvania is one of only 5 states and the District of Columbia to require a director of a licensed child care program, of any size, to have a degree. In addition to an associate degree, Pennsylvania licensing standards requires a director to have at least 30 credit hours in early childhood education and four years of experience working with children. Six clock hours of annual training are required. The competency-based director credential requires a minimum of an associate degree with at least 18 credit hours in early childhood education, 9 credit hours in business management, and five years of experience in program administration. Elementary school principal licensure requires a bachelor's degree and offers pre-K certification that requires pre-K coursework but not pre-K experience. At the highest level, the statewide QRIS requires a director to have a bachelor's degree with at least 18 credit hours in early childhood education. The state pre-K program, Pre-K Counts,

is delivered in community-based child care centers as well as schools. Community-based centers must be at Star Level 3 or higher on the QRIS in order to be eligible; therefore, directors of state pre-K programs in child care centers must have a minimum of an associate degree and 30 credits in early childhood. There are two early childhood leadership degree programs and three leadership academies in Pennsylvania.

OVERALL POLICY LEVER SCORE **3**

Child care licensing requirements in Rhode Island separate administrative and pedagogical leadership functions into two roles: administrator and education coordinator. They can be the same person, but have different qualifications. At a minimum, education coordinators must have a bachelor's degree and 24 semester hours in early childhood education. If the administrator works in a program where there is a full-time education coordinator, experience in administration and 3 years of experience working in a licensed early childhood program is all that is required for the administrator. Rhode Island does not have a director credential. Elementary principal licensure requires a master's degree and pre-K certification is available. The statewide QRIS, at the highest level, requires that the administrator have at least a bachelor's degree and 12 semester hours in early childhood education. School-based pre-K programs require a principal license, however community-based programs do not have administrator requirements. There are no early childhood leadership degree programs or leadership academies in Rhode Island.

INTERESTING FACTS

The average salary of child care directors in Rhode Island (\$66,850) is the highest of any state in the U.S.

Administrator licensing requirements support a whole leadership approach, recognizing the need for administrative and pedagogical leadership.

Bright Stars QRIS requires an Administrator to have an associate degree at Level 3 and a bachelor's degree at Level 4 and 5.

South Carolina

**OVERALL
POLICY
LEVER
SCORE**

3

Child care licensing minimally requires that directors have three years of experience in a licensed child care setting with one year experience in a supervisory role and 20 clock hours of annual training. The SC Director Credential has two tiers and requires 9 semester hours of college credit at the lower tier and 18 semester hours at the upper tier. Elementary principal licenses require a master's degree and offer certification that includes pre-K, but neither pre-K content nor experience is required. The statewide QRIS, at the highest level, requires a director to have an associate degree with at least 27 credit hours in early childhood education. Program administrators in state pre-K programs in schools must have a master's degree. There are two early childhood leadership degree programs and no leadership academies in South Carolina.

OVERALL POLICY LEVER SCORE

4

Child care licensing minimally requires directors to complete 30 clock hours of orientation training, have 4 years of experience in a group child care setting, and complete 18 clock hours of training annually. The director credential is organized in four tiers. To complete the director credential at the lowest tier (provisional), applicants must have 12 semester hours of coursework in early childhood education, 6 semester hours of coursework in leadership and management, and two years of experience as an administrator. Elementary principal licensure requires a master's degree and pre-K certification is available. At the highest tier of the statewide QRIS, directors meet the requirements with a CDA and 7 years of experience in child care. School-based state pre-K programs require principal licensure; however community-based programs do not have administrator requirements. There is one early childhood leadership degree program and no early childhood leadership academies in the state.

OVERALL POLICY LEVER SCORE **3**

Child care licensing standards minimally require that directors have 72 clock hours of training in child development and 30 clock hours in management, and 3 years of experience in licensed child care. Texas does not have a director credential. Elementary school principals must have a master's degree and pre-K certification is available. However, principal licensure does not require pre-K content or practical experience in the principal preparation requirements. The Texas Rising Star (TRS) QRIS was revised in 2017 to be implemented statewide. It is a hybrid model that adds points to required elements. Minimally, at the highest level of the QRIS, directors must have attended the TRS director's certificate course and worked as a director for 8 years in a TRS program or a nationally accredited program. School-based pre-K programs require principal licensure. Directors of a community-based state pre-K programs must be nationally accredited or be a TRS program with a minimum of three-star certification.

OVERALL POLICY LEVER SCORE

2

The minimum licensing requirements for a director is a CDA; Certified Childcare Professional (CCP); or the National Administrator's Credential (NAC) plus six Utah Early Childhood Career Ladder training courses. Utah does not have a state administrator credential but it offers a leadership certificate offered through Utah AEYC. Principal licensure requires a master's degree; pre-K certification is not available. Utah does not have a traditional QRIS, rather a recognition system where providers publically self-report data on a checklist of indicators. Principal licensure is required for school-based pre-K programs, however there are no requirements for administrators of community-based programs. There is one early childhood degree program and no leadership academies in Utah.

OVERALL POLICY LEVER SCORE

4

Child care licensing minimally requires a director of a small center (12 or fewer children) to have a Certificate of Completion from the Vermont Apprenticeship Program, which consists of 9 semester hours in early childhood and 9 semester hours in program administration. In addition to minimal licensing requirements, the competency-based Program Director Credential requires 21 semester hours in early childhood education and program management with two equivalency options. Principal licensure requires a master's degree and 3 years of teaching experience. Principal certification is pre-K-12 but neither pre-K coursework nor teaching experience is required. The statewide QRIS is a points-based system and the administrator's qualifications are combined with those of the teaching staff. Program administrators in school-based pre-K

programs are required to have a master's degree, but administrators in community-based programs are required to be licensed. There is one early childhood leadership academy and no degree programs in Vermont.

OVERALL POLICY LEVER SCORE **3**

Child care licensing minimally requires directors to have a CDA with 120 clock hours of child-related training, two years of programmatic experience (with one year experience in a supervisory capacity), and 16 clock hours of annual training. Virginia does not have a director credential. Pre-K certification is available for principal licensure, however, neither pre-K content nor experience is required. At the highest level of the statewide QRIS, a director must have a minimum of 24 semester hours in child-related coursework. The state pre-K program, Virginia Preschool Initiative, is provided in schools, Head Start, and community organizations; it does not have any specific requirements for program administrators. There are no degree programs in early childhood administration or early childhood leadership academies in the state.

OVERALL POLICY LEVER SCORE **3**

The child care licensing requirements for directors in Washington are tiered based on the number of children enrolled. For programs with 12 children or less, directors must have at least 5 semester hours in early childhood education or child development, 30 clock hours of training, and two years of experience working with children. Additionally, the director must meet STARS QRIS requirements and participate in the state registry. Washington does not have a director credential. Elementary principal licensure requires a master's degree and a pre-K certificate is available; however neither pre-K content nor experience is required. The statewide tiered QRIS is based on points for levels three through five, with level 5 ranging from 91 to 100 points. The possible points awarded for enhanced director qualifications range from 1 point (associate degree in ECE) to 4 points (graduate degree in ECE). In state Pre-K, the administrator of

a school-based program is required to have a principal license, however, the administrator of a community-based program does not have any administrator requirements beyond licensing requirements.

OVERALL POLICY LEVER SCORE

3

Child care licensing minimally require directors to have three years of experience working in a licensed child development center and an associate degree in early childhood education or child development. Directors must attain a bachelor's degree within six years of hire as the director. The District of Columbia does not have a director credential. The Capital Quality QRIS, minimally requires the administrator to have an associate degree based on the requirement that participating programs be licensed and nationally accredited. Elementary school principals are minimally required to have a bachelor's degree for licensure with a valid administrator license issued from another state.

OVERALL POLICY LEVER SCORE **3**

Child care licensing differentiates director qualifications among three center types based on the number of children enrolled. For a Type 1 Center (30 children or less) the director must have a CDA and 300 clock hours of experience working with children or ten years of relevant work experience. Directors of licensed programs must complete 15 clock hours of training for administrators annually. The Early Childhood Director's Credential is offered as a 10-semester-hour certificate at West Virginia University; a bachelor's degree is a prerequisite. Elementary school principals receive pre-K-Adult certification and are required to have a master's degree. There is no QRIS in West Virginia. While administrators of school-based state pre-K are required to have a master's degree, there are no specific requirements for administrators of community-based state pre-K. West Virginia does not have any early childhood leadership degree programs or leadership academies.

OVERALL POLICY LEVER SCORE **4**

The licensing standards have differing qualification requirements for the center director (responsible for the child care program) based on the size of the program. Licensing also mandates specific qualifications for the center administrator (responsible for the day-to-day management of the center). These roles can be filled by the same person. At a minimum, licensing requires directors to have two department-approved professional development courses, 80 days of teaching experience, and within one year of hire, completion of one course in the Wisconsin Child Care Administrator Credential. At a minimum, the center administrator must have a year of management experience or a department-approved professional development course in business or program administration plus one year of experience working in a licensed child care center. The administrator credential consists of 6 specific 3 semester-hour courses. Elementary principal licensure requires a master's degree and pre-K certification is available, requiring pre-K content. Wisconsin's QRIS is based on a point system with 33 to 40 points at the highest tier. Six points are possible

for director qualifications ranging from completion of an 18 semester hour apprenticeship program (1 point) to a bachelor's degree plus the administrator credential (6 points). School-based state Pre-K programs require principal licensure, however community-based programs do not have specific administrator requirements. There are two leadership academies but no early childhood leadership degree programs in Wisconsin.

INTERESTING FACTS

In licensed centers serving 51 or more children, directors must attain the Wisconsin Child Care Administrator Credential within three years of hire.

Coursework for the Wisconsin Child Care Administrator Credential is offered at 7 technical colleges and 2 university locations throughout the state.

The Wisconsin Registry System offers additional early childhood credentials in Leadership and Program Development.

OVERALL POLICY LEVER SCORE

2

Child care licensing requires directors to have an unstipulated combination of education and experience equivalent to two years in management, early childhood education, child development, or nursing. In addition, directors must complete pre-service orientation to early childhood, six clock hours of training, and a professional credential recognized by the Department of Family Services. Principal licensure requires an educator license and an administrator endorsement with a master's degree in educational leadership. A pre-K endorsement can be added to the license and requires teaching experience and pre-K content. Wyoming does not provide state pre-K or QRIS. It does not have any early childhood leadership degree programs or leadership academies.
