### Items 22 – 25 (Staff Qualifications) Documentation Verification

- Check transcripts for evidence of credit being awarded. Note: a college enrollment form does not satisfy the requirement of coursework being completed.
- Institutions of higher education must be accredited to receive credit for a college degree. <http://ope.ed.gov/accreditation/GetDownloadFile.aspx> is the website for accredited institutions of higher education that is maintained by the US Department of Education.
- Look for prefixes or course titles that indicate the coursework meets the specialized coursework required (ECE/CD coursework or administration coursework). For example, a course titled Human Development would count as ECE/CD coursework *only* with an ECE/CD prefix. Credit for ECE/CD coursework can be received if the course title includes early childhood, child development, young children, infant/toddler, or early intervention.
- If a course does not have an ECE/CD prefix and the title does not include early childhood, child development, young children, infant/toddler, or early intervention the assessor should ask to see a course description/syllabus. If the course description/syllabus indicates that the majority of the course focuses on early childhood credit can be received for those course hours.
- If the staff are working with school-aged children, the elementary education and recreation coursework should be given credit in the second indicator strand concerned with specialized education.
- If documentation is a diploma for an associate, baccalaureate, or graduate degree in early childhood education/child development, credit can be given for 21 sh in ECE/CD. (This applies to the second strand of the staff qualifications items).
- College credit listed on transcripts in quarter hours can be translated into semester hours by applying the following formula: number of quarter hours ÷ 1.5 = semester hours.
- 1 California unit is equivalent to 1 semester hour.
